

## Stock Risers: 2022 WRs raising their profile (STL)

**Colin Bunner**

**6'2, 176 lbs.**

**WR, 2022, Holt**

**@colin36894343**

Another extremely productive receiver from Holt who brings terrific size and great hands. He just goes up and makes plays. He has solid speed and shows the ability to hang onto the ball for chain moving plays. Bunner is averaging 19 yards per catch and already has 536 total yards and six touchdowns at the midway point in the season. He has a good touch and makes long strides after the catch.
